I'm Josh Burrup, I am a Junior and am currently taking a web development and design class at Jordan Academy of Technology and Careers and planing to take a programming class next year. My plan for college is to get computer science degree, but I am currently learning cyber security and might get a degree in the instead. I love working with computers and I also like to play video games. I am also on a few different teams. I am working on creating a game for a competition and I am also on a Valorant esports team.
